

THE 7TH ASCE-TWIG ENGLISH PRESENTATION CONTEST

Objective

The aim of this contest is elevating the international competitiveness of civil engineers in Taiwan. The contest broadens the vision of practitioners and encourages presenting professional articles at international conferences. Participants will take advantage of unique experience of learning from their peers.

The Content of the Contest

Topics can range from analytical research to real world case studies. A proposed presentation outline is required to be submitted prior to the presentation contest. The maximum length of the outline shall not exceed 2 pages (A4 size paper). The official language of this contest is English.

Contest Grouping

1. Young Professional Engineer Level (age 35 and younger, working professionals)
2. Graduate Level (including Masters and Ph.D. candidates)
3. Undergraduate Level (including junior college and university students majoring in civil, construction and hydraulic engineering)

Contest Details

1. A presentation outline from each contestant must be received prior to the deadline.
2. Venue and Dates:
